

Other Class Participation Activities:

Group activities

Student Responsibilities:

Students are responsible for all material covered in class lecture. If you miss class for any reason, you will need to find out what you missed(including any changes in reading assignments). Students are responsible for reading the assigned material in the text **before** coming to class. Students should keep all returned, graded assignments until after final course grades have been posted on UAonline.

Course Goals

Students should exit the course with the following skills:

Honor code and Academic integrity- Students are expected to conduct themselves in accordance with the UAF Honor code. The Chemistry Department policy states: Any student caught cheating will be assigned a course grade of F. The students academic advisor will be notified of this failing grade and the student will not be allowed to drop the course.

Disability Services- I will work with the Office of Disabilities Services (208 Whitaker Bldg, 474-5655) to provide with me to discuss appropriate accommodations. A letter from disabilities services must be provided.

Tentative Schedule

Unit1: Data Treatment (Chapter 0-5)
Error and error propagation
Statistical treatment of data
Calibration Techniques
Quality Control and Quality Assurance

Exam 1

Unit 2: Equilibrium (Chapter 6-11)
Solubility
Acid-Base
Chelation

Exam 2

Unit 3: Instrumentation (Chapter 13-20)
Electrochemistry
Spectrophotometry
Chromatography

Exam 3

Final Exam on Wednesday Dec 8th, 8-10am.

REVIEW SAFETY FEATURES IN THE LAB (REIC 245)

- Cubbies for bags and coats
- Location of personal protective equipment (PPE)
