

Appendix B—Master Planning Committee Recommendation

To: Charles Lee Marshall, Liaison

John C. Craven
Master Planning Committee

From: John C. Craven
Chair

Subject: MPO Recommendations for a Revised or Alternative Site Plan for the North Campus Area

The Master Planning Committee (MPC) has reviewed the MPO recommendations for a revised or alternative site plan for the North Campus area. The MPC has concluded that the MPO recommendations are not in the best interests of the University and the community. The MPC has identified several key issues that must be addressed before a revised or alternative site plan can be developed.

Recommendations

The MPC recommends that the MPO be directed to conduct a comprehensive study of the North Campus area, including a detailed site plan, a transportation study, and a study of the impact of the proposed development on the surrounding community. The MPC also recommends that the MPO be directed to conduct a study of the impact of the proposed development on the surrounding community, including a study of the impact on the environment, the economy, and the quality of life.

The MPC also recommends that the MPO be directed to conduct a study of the impact of the proposed development on the surrounding community, including a study of the impact on the environment, the economy, and the quality of life. The MPC also recommends that the MPO be directed to conduct a study of the impact of the proposed development on the surrounding community, including a study of the impact on the environment, the economy, and the quality of life.

The MPC also recommends that the MPO be directed to conduct a study of the impact of the proposed development on the surrounding community, including a study of the impact on the environment, the economy, and the quality of life. The MPC also recommends that the MPO be directed to conduct a study of the impact of the proposed development on the surrounding community, including a study of the impact on the environment, the economy, and the quality of life.

The MPC also recommends that the MPO be directed to conduct a study of the impact of the proposed development on the surrounding community, including a study of the impact on the environment, the economy, and the quality of life. The MPC also recommends that the MPO be directed to conduct a study of the impact of the proposed development on the surrounding community, including a study of the impact on the environment, the economy, and the quality of life.
