

*Tuesday Tips* is an outreach effort by OGCA. The idea behind *Tuesday Tips* is to convey tips, tricks and other helpful information around the area of research administration. Our goal is to post on (almost every) Tuesdays. If there is something you would like to see covered on *Tuesday Tips*, email: [UAF-GCReATE@alaska.edu](mailto:UAF-GCReATE@alaska.edu). For more Tips visit [OGCA website](#).

## Current and Pending/Other Support for Proposals and Awards - What to Include

Many funding agencies require the submission of information about active and pending support for ongoing projects and proposals to prevent scientific, budgetary, or commitment overlap. This information is used by the funding agencies to assess the capacity of the individual to carry out the research as proposed as well as to help assess any potential overlap/duplication with the project being proposed. It includes all resources made available to an individual in support of and/or related to all of their research efforts, regardless of whether or not they have monetary value.

*f* For NIH Research Performance Progress Report (RPPR)  
include: ACTIVE, OVERLAP, INACTIVE

- o For NSF, include the proposal/award for which current and pending support must be included
- x Sponsored awards on which the PI has a time/financial commitment that are administered by institutions other than UAF, including institutions in foreign countries
- x Internal awards - Include when the award is in direct support of the research project in question and when it supports effort
- x Commercial funds
- x Consulting agreements - Include when if the individual's consulting efforts support their research endeavors
- x Start up packages from organizations other than UAF
- x In kind lab and office space provided by an organization outside of UAF
- x Appointments outside UAF for all positions, domestic and international, including titled academic, professional or institutional and regardless whether full-time, part-time, voluntary, adjunct, visiting, or if remuneration is received
- x Affiliations (even if described as honorary) with foreign entities or governments, including talents programs
- x Foreign scholarships, awards, and other financial support made directly to laboratory personnel, including graduate students or postdoctoral fellows, who are working on the research in the investigator's lab
- x Mentoring activities that are not part of UAF appointment and for which in-kind support is received either directly or through UAF

- x Items or services given with the expectation of an associated time commitment, including scientific materials even if they have no monetary value.
